

ROC8S 8" Rock Speaker Installation Instructions

Thank you for purchasing the Dayton Audio® 8" Outdoor Rock Speaker. This speaker offers exceptional high-fidelity sound; perfect for use in gardens or around decks, patios, or gazebos. An 8" polypropylene woofer produces exceptional bass output and a coaxially mounted 1" polycarbonate tweeter delivers smooth and extended high frequencies. With its unobtrusive, weather-resistant housing, this speaker will provide invisible audio reproduction for many years.

Connection: Use a high-quality direct-burial approved wire for connection to your audio system; 16 gauge minimum is recommended. The included twist-connectors or other similar waterproof connectors should be used. The white wire lead is the positive connection and the black is the negative.

Placement: The low-to-the-ground design of the Dayton Audio 8" Rock Speakers allows them to easily disappear sonically into the landscape. To provide the best combination of even sound and audibility, the rock speakers should surround the listening area and be approximately 10 – 15 feet away from the main listening position. Due to the diffusive nature of the outdoor environment, at least one rock speaker should be located near each critical listening position.

Specifications: •8" polypropylene woofer •Coaxial-mounted 1" polycarbonate tweeter
•Frequency response: 42 – 20,000 Hz •Impedance: 8 ohms •Power handling: 60 watts RMS/120 watts max •Sensitivity: 87dB 1W/1m •Dimensions: 11-1/2" H x 17" W x 9-1/2" D.

Warranty Information

Dayton Audio products are warranted free from defects in material and workmanship for 5 years from date of purchase. 1 year warranty applies to the following products: powered subwoofers and electronic devices (e.g. subwoofer amplifiers, and plate amplifiers, as well as the Omnimic V2 and DATS loudspeaker testing devices). In the rare case of a product failure, please contact your place of purchase or call our Customer Support Department at (937) 743-8248.

Warranty Limitations

There are no other warranties, either expressed or implied, that extend the foregoing, and there are no warranties of merchantability or fitness for any particular purpose. Dayton Audio is not responsible for any consequential or inconsequential damage to any other unit or component or the cost for installation or extraction of any component of the audio system, or for the improper use of products. This includes but is not limited to burnt voice coils, overheating, bent frames, holes in the cone, or broken lead wires.

This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

Non-Warranty Service: If non-warranty service is required, the product may be sent to the Company for repair/replacement, transportation prepaid, by calling (937) 743-8248 for details, complete instructions, and service fee charges.
