A Monster Amp in a Tiny Package!

DAYTON, OH – Dayton Audio's DTA-120 60 watts per channel Class T amplifier combines the power efficiency of Class D designs with the audio fidelity of a Class AB amp, for an ultra-small and affordable package that fits virtually anywhere.

The DTA-120 employs 4 ohm-stable parallel-bridge topology that enables it to power and control large and demanding speakers, with superb finesse and improved stability. The ultra-compact extruded aluminum heat sink enclosure features a front-mounted 3.5 mm input paralleled with RCA connectors on the rear of the chassis.

About Dayton Audio

Dayton Audio has been a leading supplier of audio and video products for over two decades. Dayton Audio offers some of the finest lines of consumer electronic products today.
