

Dayton Audio Bluetooth Amp Boards Bring New Meaning to Plug-and-Play

DAYTON, OH (March 5, 2019) – The new KAB amplifier boards from Dayton Audio offer industry leading performance and features all in a board the size of a deck of cards. Able to be powered with any DC power source from 12-24VDC the Dayton Audio KAB boards can be used almost anywhere.

The KAB mono amplifier boards include 60 watt [KAB-60M] and 100 watt [KAB-100M] versions. Stereo boards are offered in 2 x 30 watt [KAB-230v3], and 2 x 50 watt [KAB-250v3] versions. With numerous plug-and-play accessory options ranging from volume controls, aux inputs, battery boards, and mounting brackets integrating sound into your project has never been easier. Each amplifier board utilizes a highly efficient Texas Instrument Class D chipset.

Each KAB amplifier board features onboard Bluetooth 4.0 with aptX technology and for any orders of 20 units and up the Bluetooth name can be changed to a custom message or phrase of your choice.

From the simple hobbyist to OEM manufacturing the KAB amplifier boards and accessories offer a unique flexible solution to your next project.
