## **Looking for an Indoor/Outdoor speaker that's affordable and sounds great?**

DAYTON, OH --- The new IO Series speakers from Dayton Audio provide excellent sonic performance and solid value in a compact, elegant format that's easy to mount anywhere. Indoor/outdoor sound this good has never been so affordable!

The acoustic character of the IO Series was engineered and tuned exclusively by Dayton Audio for rich, balanced sound with great detail. While audio performance is always paramount, aesthetics also matter when speakers are in a home or commercial environment. Thanks to rugged ABS construction and aluminum grills, these speakers will retain their great looks for years.

Each Dayton Audio IO Series speaker features a mineral-filled polypropylene cone woofer with rubber surround for great bass, and an accurate, extended response 1" metalized Mylar dome tweeter. The IO525 utilizes a 5-1/4" version of the poly woofer, while the larger IO655's 6-1/2" woofer provides even greater low frequency output and extension. Both models incorporate yoke-style mounting brackets, stainless steel hardware, and corrosion-resistant nickel-plated push terminals, which means installation of IO Series speakers is fast and easy.
