Dayton Audio Delivers the Paper!

DAYTON, OH –The performance of the original groundbreaking Reference Series from Dayton Audio, now available with a paper cone!

The Dayton Audio Reference Series now includes drivers incorporating a proprietary cone formulation that combines natural paper pulp with synthetic Kevlar® and glass fibers to create a unique non-woven composite. In conjunction with the Reference Series' proven low-distortion motor design, these advanced cone materials contribute to low-coloration and highly accurate audio reproduction. The drivers' smooth, linear response simplifies crossover design.

About Dayton Audio

Dayton Audio has been a leading supplier of audio and video products for over two decades. Dayton Audio offers some of the finest lines of consumer electronic products today. Every Dayton Audio product is designed and engineered in the U.S.A. offering the highest level of performance and value, backed by industry-leading warranties and support.
